SUBSIDIZED
CHILD CARE SERVICES RATES
PLANNING FOR THE ADDITIONAL CONTRIBUTION
For 2016, the contribution by a parent whose child attends a subsidized childcare service includes a basic contribution of $7.55 per day, per child, and an additional contribution that is adjusted according to family income.

A NEW TAX SLIP

As a signatory parent of a subsidized daycare agreement, you will receive an RL-30 (relevé 30) slip no later than February 29, 2016. It will allow you to determine the additional contribution you may have to pay when filing your 2015 income tax return.

Please note that all signatory parents of a subsidized daycare agreement will receive an RL-30 slip, even parents who may have no additional contribution to pay.

PLANNING FOR THE ADDITIONAL CONTRIBUTION

To plan for the additional contribution payment for 2016 and subsequent years, you can estimate the amount by using the “Additional contribution for childcare expenses” calculation tool available on the Ministère's website.

Once you know the amount, you will be able to

- set aside the amount needed;
- increase the Québec income tax withheld at the source by filling out one of the forms below available on the Revenu Québec website (www.revenuquebec.ca) and submitting it to your employer:
  - Source Deductions Return (TP-1015.3),
  - Request to Have Additional Income Tax Withheld at Source (TP-1017);
- increase the amount of your instalment if you are self-employed.
